

June 1st-3rd, 2022, Toulouse, France

ECOSLIGHT

ENVIRONMENTALLY CONSCIOUS SMART LIGHTING

Human Resources in Lighting June 3, 2022, Toulouse, France & online

ECOSLIGHT Panel Key Information

- ECOSLIGHT aims to the upskilling and the enhancement of employability of professionals and HEI students linked to lighting-related issues in the construction sector. For this purpose, it
 - Designs new job profiles reflecting actual needs
 - Designs and develops VET curricula based on the market competence needs, making a combination of lighting, green, digital, entrepreneurship and life competences
 - Develops and makes available to the public a modular VET training program, including a MOOC and a specialization course (per profile)
- A European-wide market analysis was conducted to identify the skills and competences required for professionals operating in the sector, as well as the training programs currently offered for them, mainly possessed in the EQF level 5. The results of this analysis are presented during this panel, followed by a discussion on key findings. The complete survey results may be found here: https://www.ecoslight.eu/results/

This panel is organized under the EEDAL : LS17 Conference, on June 3, 2022 (Toulouse, France), in hybrid format. For in-person participation, please visit the conference webpage: https://eedal-ls21.sciencesconf.org/. In order to participate to the ECOSLIGHT International Panel virtually, you may connect through ZOOM. The participation to the ECOSLIGHT International Panel is free of charge!
